Since its opening in 1989, the award-winning Rancho Valencia Resort & Spa - Southern California's only Relais & Châteaux property - has garnered a reputation as one of the West's most sought-after five star resorts. An imensely photogenic sanctuary of good living tucked away on 45 acres of lush gardens and olive groves, waterfalls and parkland. ABM Photography's story started with a couple of friends with an overwhelming passion for the photo-journalistic style of wedding photography. We feel blessed to be able to make a meaningful impact on people's lives by editorializing their cherished memories of the experience in this rather incredible place, on their wedding day.
